

Pre-recorded Webinar

# Using Clarity's Diagnosis and Treatment Guidance content to manage atrial fibrillation. New changes to bleeding risk assessment.

In this webinar we demonstrate how to access the bleeding risk assessment guidance through MedicinesComplete, providing an insight into how this evidence-based content can be used in your work to benefit your patients.

The presenters look at the diagnosis, risk assessment and management of a patient with atrial fibrillation (AF), using Clarity's Diagnosis and Treatment Guidance. They focus specifically on the new evidence surrounding ORBIT scoring methodology for AF.

## Presenters

Dr Gerry Morrow

Dr Gerry Morrow has a background of 20 years as a GP, when his interests were in cognitive behavioural therapy, end-of-life care and patient involvement. Over the years, he has published extensively on all aspects of clinical care, healthcare developments, and the shared-care approach to clinical practice.

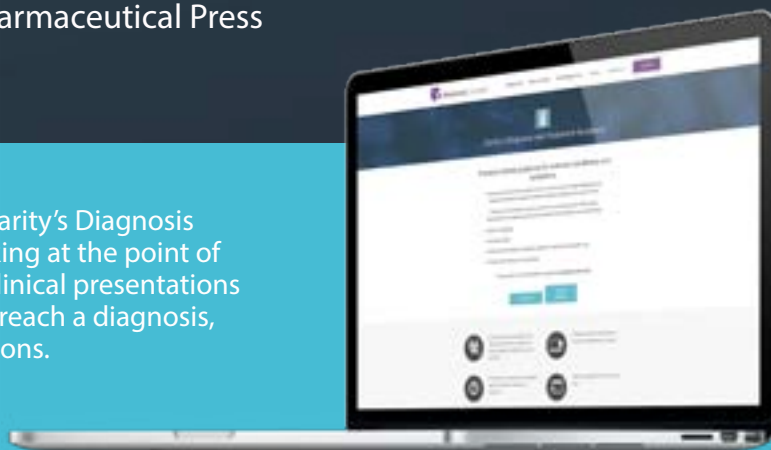

Ross Ferguson

Ross Ferguson has been a pharmacist for over 25 years and has been with Clarity for 6 years. He has worked in pharmacy publishing, owned a pharmacy, and been a pharmacy manager and locum. His book *Pharmacy Management of Long-term Medical Conditions* was recently published by the Pharmaceutical Press.

with Kiri Aikman, Head of New Content at Pharmaceutical Press

Covering over 370 clinical topics for use in primary care, Clarity's Diagnosis and Treatment Guidance supports confident decision-making at the point of care. The resource is fully referenced covering over 1,200 clinical presentations and patient scenarios, helping healthcare professionals to reach a diagnosis, prescribe safely and offer safe and effective treatment options.
